

## Invitation to the site visit of the WP2/WP3 investments on March 18<sup>th</sup> and 19<sup>th</sup> 2010.

Dear Sir / Madam,

As planned in the AMICE project partners should visit each other projects on location. This then is the opportunity to visit both Dutch investment projects! One is the HOWABO project of the water boards Aa en Maas and Dommel near the the City of 's Hertogenbosch (in AMICE known as action 19 in WP3). The other one is the Steenbergse Vliet project of the water board Brabantse Delta in the most downstream part of the Meuse basin (in AMICE known as action 16 in WP2).

Both investments are now starting and we invite you to visit both locations and gain knowledge of the geographical situation, the approach, the backgrounds of the projects, the parties and partners involved, the communities and all the people busy on the development of the investments.

We made a great arrangement which allows you to visit both projects in just one visit. We are sure you'll be delighted with it. Please find more in the detailed programme. On Thursday evening we will take you in a walk-and-eat visit through the very interesting centre of 's Hertogenbosch. You need to register for this event.

The Golden Tulip Hotel Central is the start and end of the two day site visit. Book your hotel via [www.booking.com](http://www.booking.com) or another site for finding hotels around 's Hertogenbosch.

The aim of both days is to exchange knowledge and experience, develop knowledge of each project area in relation to the total Meuse basin. During the site visits the general AMICE message will be explained and will be promoted: " It is necessary to develop a "team spirit", an attitude of information sharing at a trans national level, between all operators on the Meuse basin in order to cope with the effects of climate changes."

You are kindly requested to let us know whether you will attend this visit or not by filling in the registration form added to this invitation and sending it to: [amicevisit@aaenmaas.nl](mailto:amicevisit@aaenmaas.nl) .

Looking forward to meet you soon.

The organising committee:

Joop de Bijl, (tel. +31655173989)  
Water board Aa en Maas.  
and Ron Lambregts (tel. +3176464176)  
Water board Brabantse Delta.
